## ABOUT ME

---

I am currently a fourth-year computer science student. I am looking an internship position that aligns with my knowledge and skills in programming languages, as well as web and application design. I am also eager to further develop my abilities in these areas. My goal is to gain valuable experience and leverage it to advance my growth in this professional field.

## SKILLS

---

C	Python	JavaScript	HTML	CSS
React	Node.js	Node.js	Flutter	MySQL

## EXPERIENCE

---

### Portfolio Web Application

**2024**

(Coding Project outside of class time)

- This project is the project that I made as a portfolio for applying for jobs that will include details of the projects I worked on or certificates that are not in the curriculum vitae.
- Use HTML, CSS and Javascript

### Mini Project: Analysis of data on Sleep Efficiency

(Group Project in Data Science Course)

- Design ideas for training models to Sleep Efficiency on data in the dataset.
- Use Python and Jupyter Notebook

### Create and design Food Ordering website pages

(Web Technology Course)

- Designing a website to handle food orders and calculate the total amount
- Use HTML,CSS and Javascript

### Application page design about Sentimental Analysis

**2023**

(Mobile Development Course)

- Create an application that uses an API to analyze the sentiment of a given sentence (e.g, to determine whether it expresses anger, joy, or sadness).
- Use React-Native, Javascript, and Android Studio.

## EDUCATION

---

### 2021 – Present

#### Bacheior of Science Program in Computer Science

*Kasetsart University Kamphaeng Saen Campus*

**(GPAX 6 TERMS : 3.36)**
